• SAMPLE 3 — Statewide Community Planning Group: Letter of Concurrence with Reservations

Grants Management Branch Procurement and Grants Office Centers for Disease Control and Prevention 290 Brandywine Road Room 300, Mailstop E-15 Atlanta, GA 30341 Re: LETTER OF CONCURRENCE WITH RESERVATIONS Dear Mr./Ms: We concur with our health department's application with one major exception. We are concurring with concerns to the health department's application for funding. As a CPG, we feel that the health department has consistently failed to implement effective programs for Men who Have Sex with Men (MSM). We recognize that this is a difficult population to reach, however, this is the jurisdictions's number one target population (as documented in both the epidemiologic profile and our priority setting process). The CPG has stated both the need and the types of interventions that are most needed (see the Comprehensive HIV Prevention Plan, Target Populations: MSM). Despite our reservations about the application, we feel proud of how the community planning group came together with the health department and accomplished so much with such a diverse group of individuals. The community planning process is truly community diven. This was reflected in the review of the health department's application. The health department distributed copies of the application to all members and each member had ten days to review the application and to respond with comments. The community co-chairs collated comments and then participated in a conference call to make the decision to concur with concerns with the health department application.	Date
